new collection

ABOUT US

Mesa Furniture was established in 1997 in Wijchen, Netherlands, on the production of sofa legs. Later, in 2002, it expanded its product portfolio and started to produce tables, chairs, armchairs and similar furniture. It exports to different points of Europe with its production that started in Konya Ereğli in 2002. In addition, between 2002-2015, while following the wholesale policy, it also entered the retail sales sector and its investments in this area continue. While Mesa Furniture provides more retail production in the country, it carries out its overseas marketing and sales activities through sales dealers scattered in Europe. It exports its products to approximately 5 countries, the designs of which belong to them.
